## Legacy Cost Reimbursement: Estimated vs Actual

# ALI Circuit Disconnection Process

---

- Once your PSAP is on INdigital ALI, begin a new email to [leah@al911board.com](mailto:leah@al911board.com)
- *Email Subject Line:* PSAP Name, AL (Authorization to disconnect AT&T ALI circuits)
- *Body of email must contain:* I Authorize AT&T to disconnect AT&T ALI circuits for the below PSAP as our PSAP is no longer bidding AT&T for ALI.

Account Number (if available):

ALI Circuit info (if available):

PSAP Name:

PSAP Address:

PSAP contact name authorizing disconnect:

PSAP Contact Title:

PSAP Contact Office Number:

PSAP Contact Cell Number:

- Send the completed email to [leah@al911board.com](mailto:leah@al911board.com). Confirmation that the PSAP is ready for disconnect will be provided by INdigital and the request will be submitted to AT&T.

# Updates and Considerations

- a. ANGEN Reimbursements**
- b. Legacy Reimbursements**
- c. ALI Circuit Disconnection**
- d. Telecommunicator Reclassification**
- e. Telecommunicator Outreach Packets**

# Recent, Ongoing, and Upcoming Deadlines/Activities

---

## a. Recent

- i. Ongoing PSAP Outreach for ANGEN Deployment and Services & the GIS Project

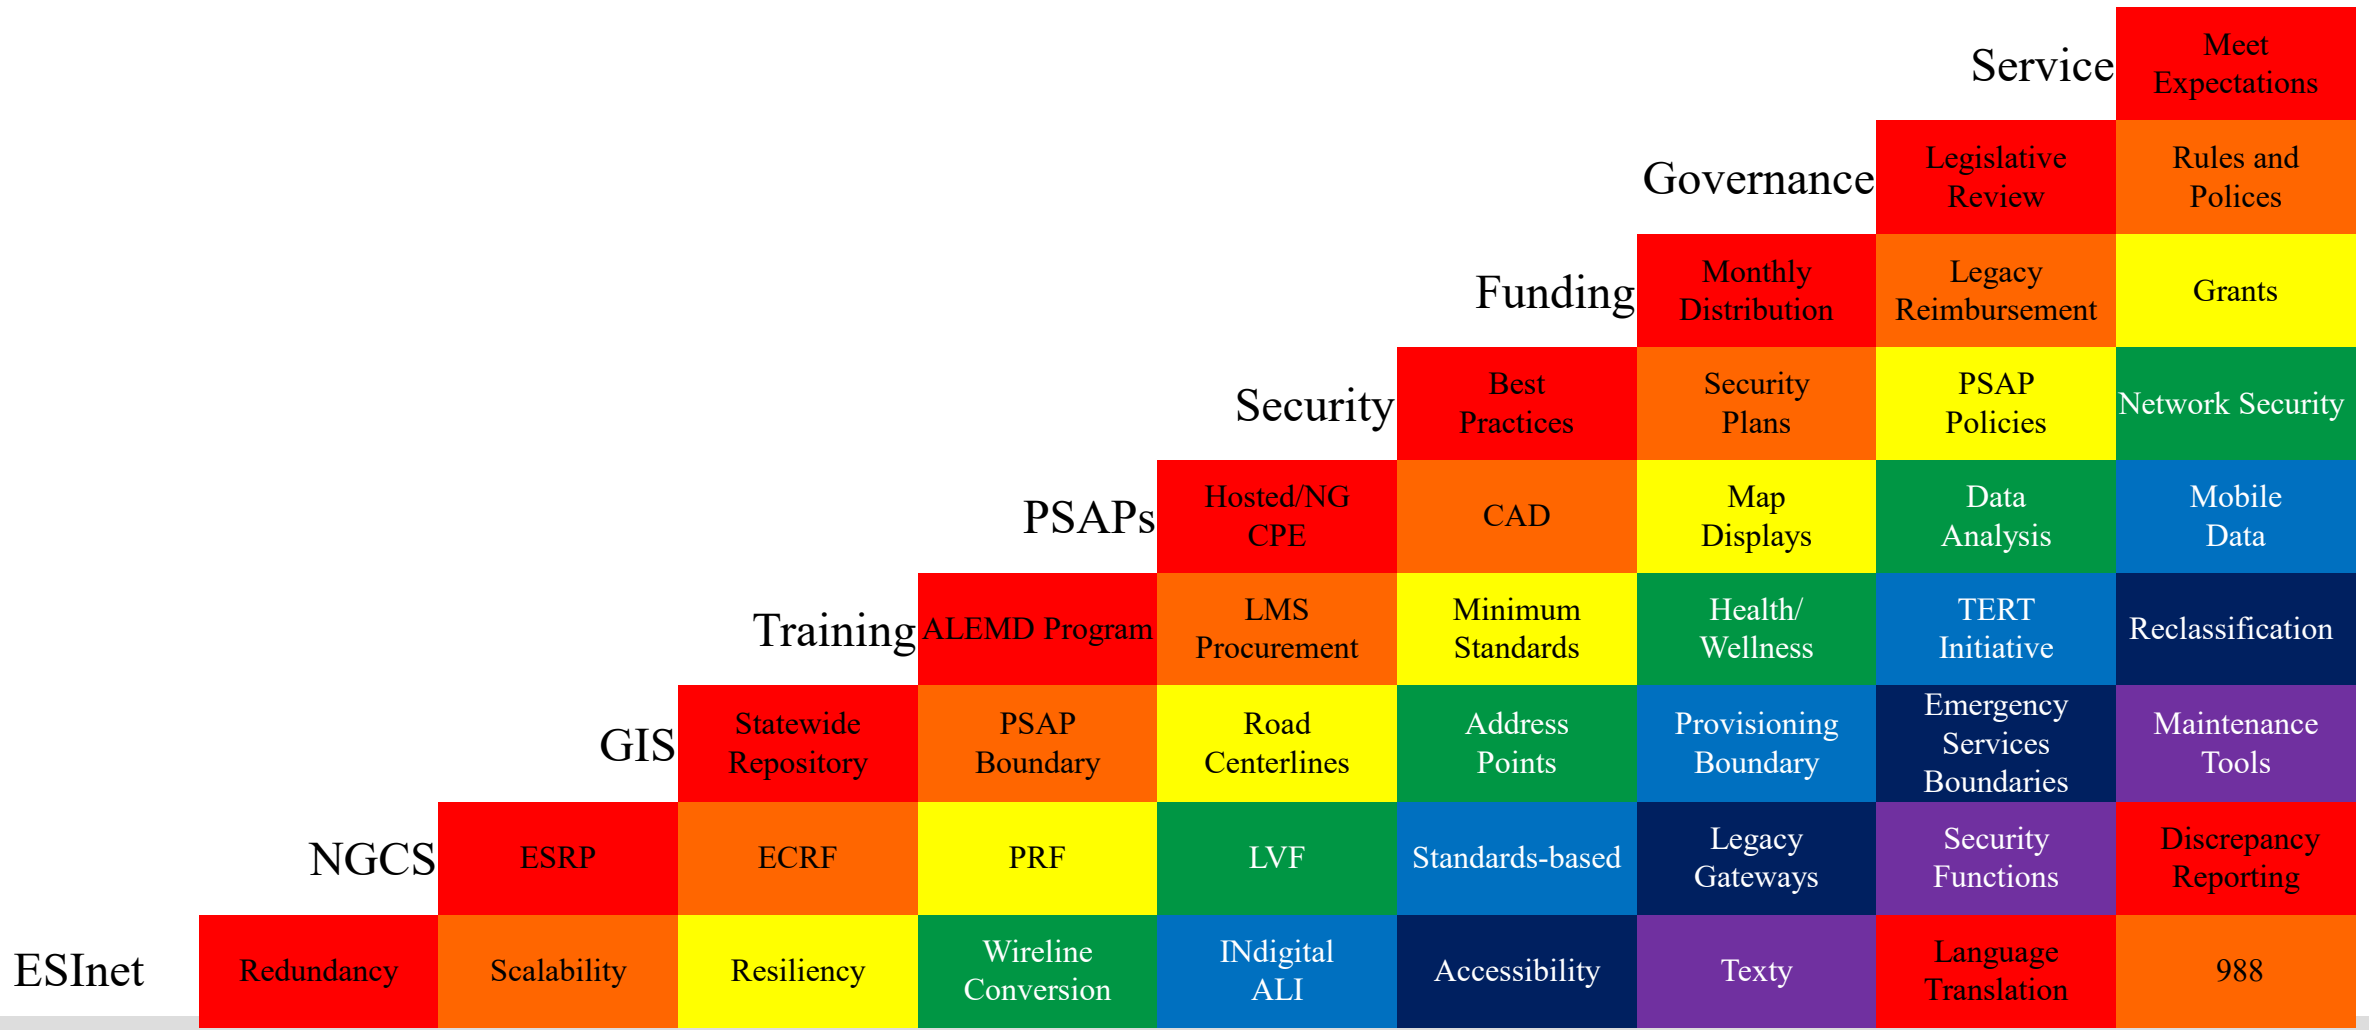

## b. Ongoing

- i. Meetings with other States and Entities about GIS and ESInet interoperability
- ii. Meeting with Department of Defense on ESInet interoperability
- iii. Discovery and Workflow Meetings with DATAMARK
- iv. Statewide Notification System Workgroup Kickoff Meeting

## c. Upcoming

- i. Meetings (Committees & Board) Scheduled through December 2021
  1. Board (3<sup>rd</sup> Wednesday of odd months)
  2. Education & Outreach (1<sup>st</sup> Tuesday afternoon of even months)
  3. Finance (1<sup>st</sup> Wednesday morning of even months)
  4. Governance (1<sup>st</sup> Wednesday afternoon of even months)
  5. Technical (1<sup>st</sup> Tuesday morning of even months)

# ANGEN Report

(Tab 8)

---

ANGEN TEAM

# ANGEN March 2021 – May 2021 Project Review

Presented May 19, 2021

911 Authority

# Past Months' Activity

- ANGEN Planning and support with INdigital
- Ongoing technical and project management support
- GIS Project participation
- Ongoing CPE project support
- Federal Grant report filing
- Independent Validation and Verification (IVV) test planning with INdigital has begun and initial connectivity has been established

# Independent Validation and Verification (ANGEN IVV)

- ANGEN initial deployment is complete!
- Time to verify and validate what has been implemented by Indigital!
- IV&V will include reviews of the hardware, software, networks, applications, security, information assurance.....all the components of ANGEN.

Date	Project Activity or Milestone
<b>4/15/2021</b>	Kick off IVV Testing Project
<b>4/15/2021 – 5/20/2021</b>	Test preparation, planning and coordination
<b>5/24/2021 – 5/28/2021</b>	Conduct IVV Testing
<b>6/21/2021</b>	Deliver draft findings report to Executive Director
<b>7/14/2021</b>	Deliver Final IVV Findings Report to Executive Director, prep for July 21 Board Meeting presentation

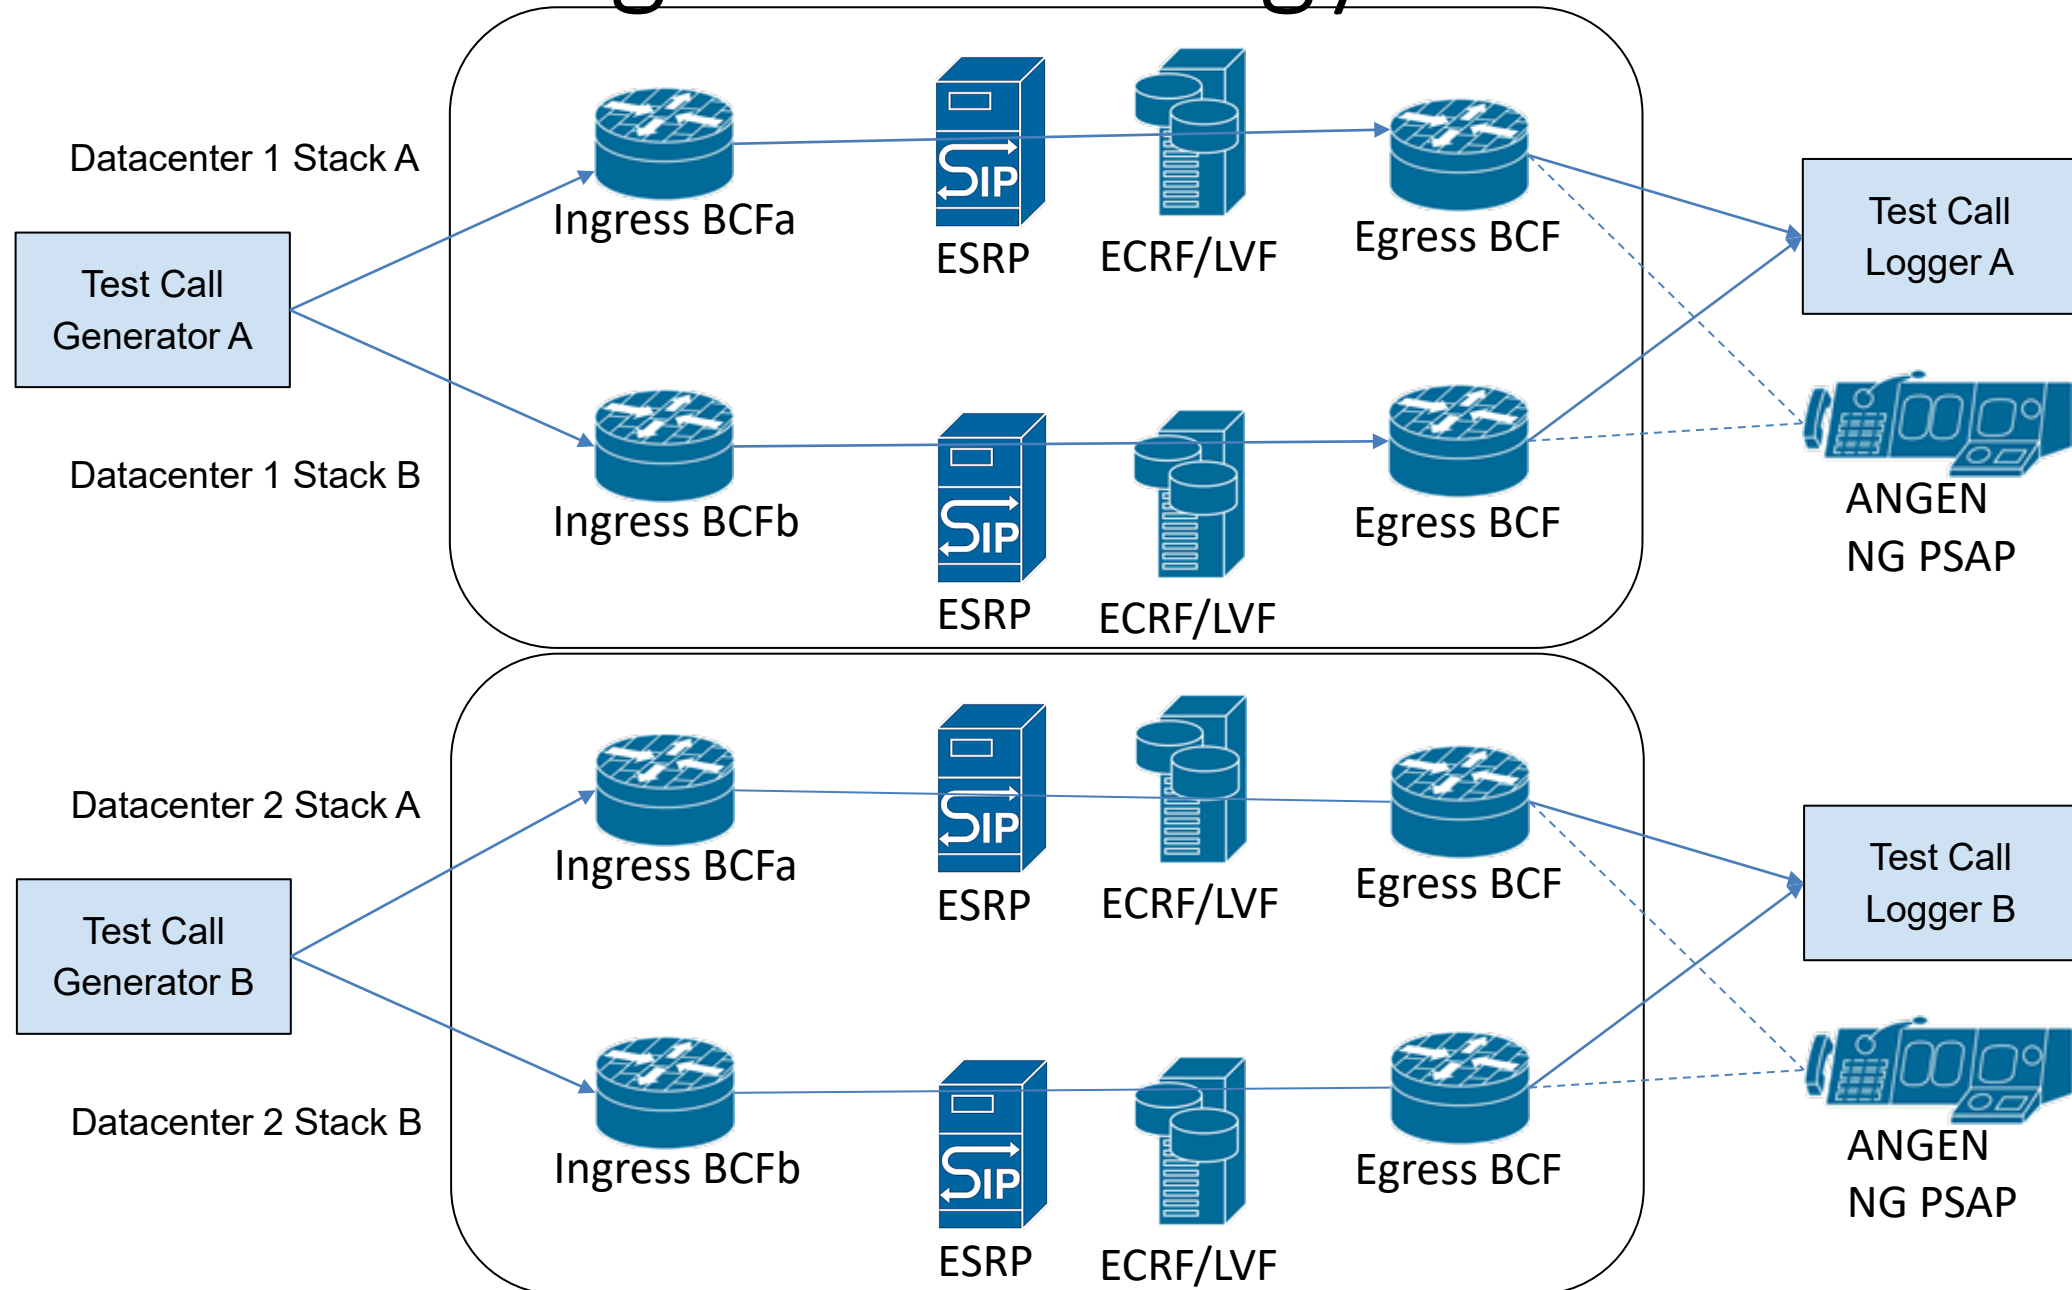

# Independent Validation and Verification (ANGEN IVV)

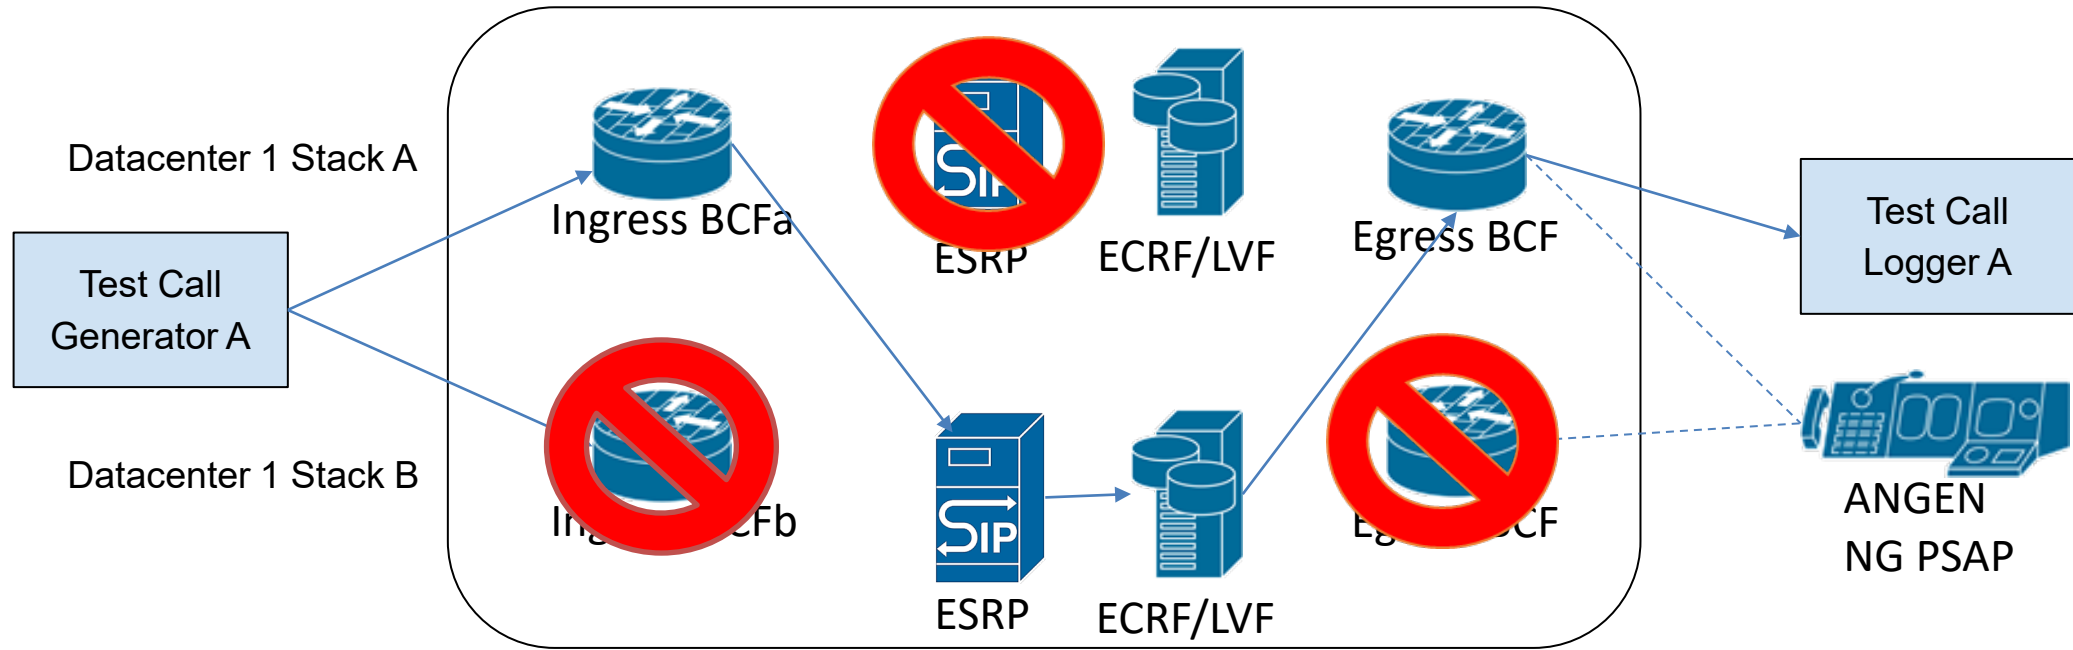

## The INdigital Contract Requirements

The following requirements will be tested, validated and verified as part of this project. The requirements of the INdigital system as established by contract and found in **Exhibit 1: AL-NG9-1-1-RFP-16-001 – Attachment D Technical Specifications** are:

- **Section 2 (ANGEN ESINet Requirements),**
- **Section 3 (ANGEN Specific Requirements),**
- **Section 4 (ANGEN/i3/NG Core Services Requirements) and**
- **Section 5 (System Reporting and i3 Logging Requirements)**

# Basic IVV Testing Methodology for ANGEN

# Alabama Next Generation Emergency Network

ANGEN 2.0

Report for March 1 – April 30, 2021

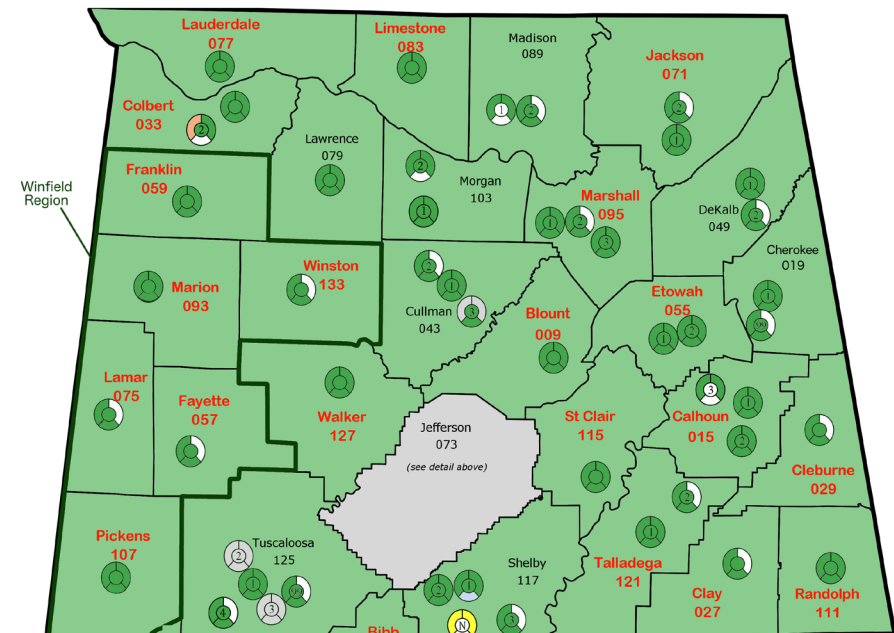

# ALL 9-1-1 Calls in Alabama are now delivered over ANGEN!

As of May 4<sup>th</sup>, all PSAPs in Alabama are complete with Phase 2 and are receiving calls over ANGEN!

- Jefferson County - 073
- 01: Jefferson County 911
- 02: Adamsville PD
- 03: City of Bessemer
- 04: Birmingham ECD
- 06: Gardendale 911
- 07: Homewood 911
- 08: Hoover 911
- 98: Hoover 911 B-Side
- 09: City of Hueytown
- 10: Irondale PD
- 12: City of Midfield 911
- 13: Mountain Brook 911
- 14: Pleasant Grove Police
- 15: Tarrant PD
- 99: Mountain Brook FD/E911

With Lauderdale's cut, INdigital is no longer sending any call traffic to AT&T or Lumen to be delivered to any PSAP in the state.

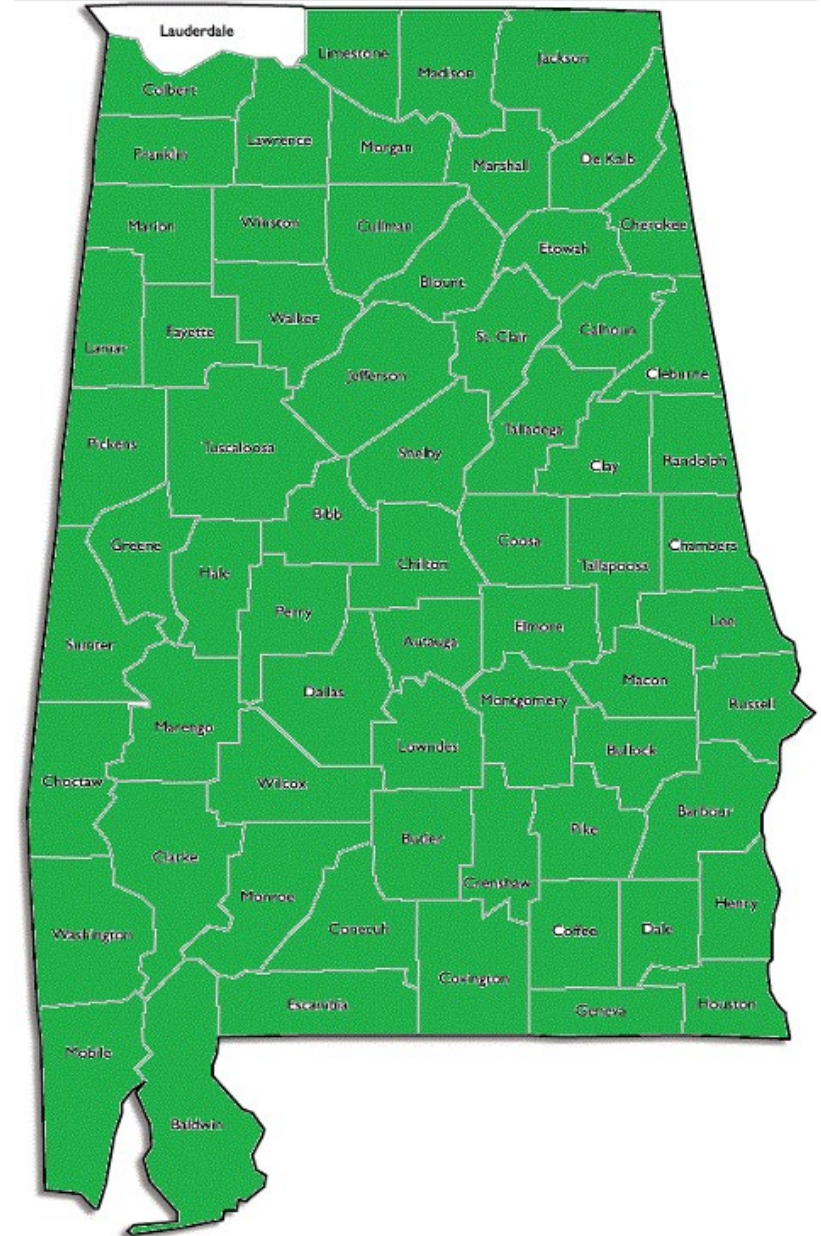

INdigital will now begin the process of disconnecting the ANGEN 1.0 wireless outbound trunks and T1s

# STAGE 3.A

## Deliver wireline 911 calls directly to PSAP instead of picking up wireline CAMA at PSAP

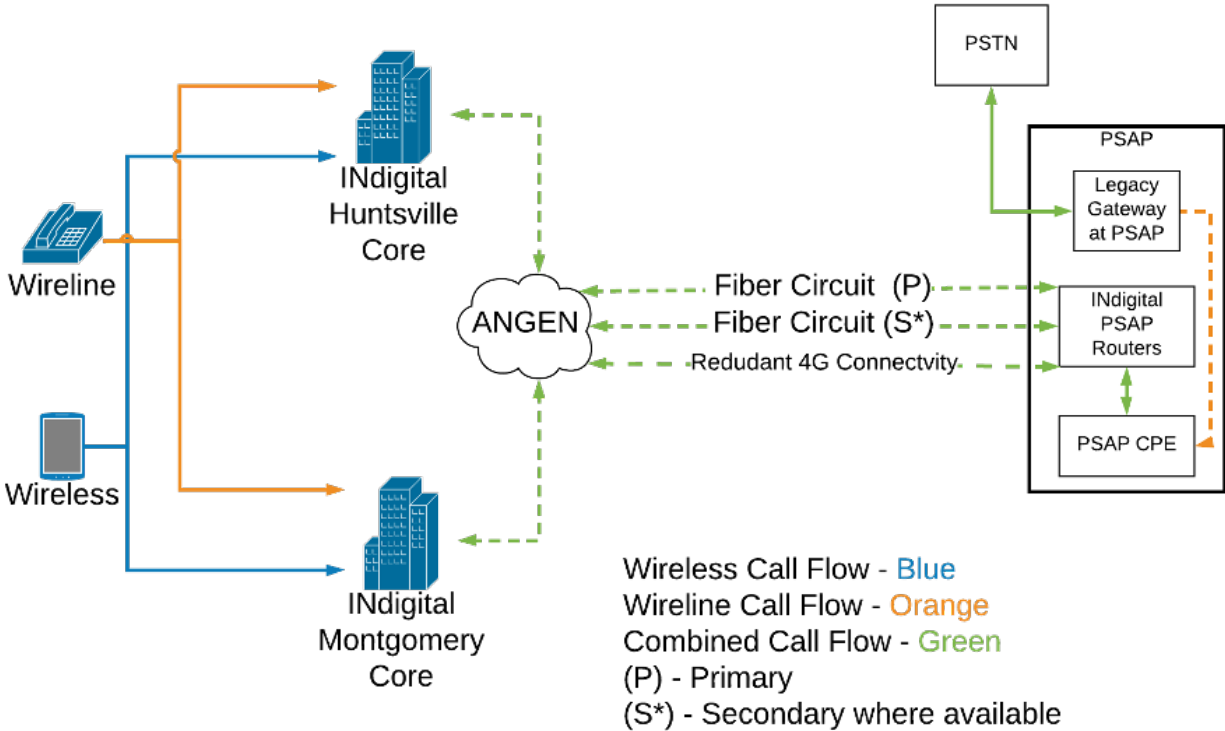

- This stage will complete on May 18<sup>th</sup>
- This will complete our planned work with AT&T for wireline conversion

# STAGE 3.B

## Directly receive and selectively route wireline calls

Stage 3.b consists of wireline carriers sending calls directly to our data centers and bypassing the legacy selective router. INdigital would then take over the selective routing of those wireline calls.

# STAGE 3.B

## Directly receive and selectively route wireline calls

- The first step to complete step 3.b is for the PSAP to use Indigital ALI. The above map highlights where Indigital ALI is currently set-up (green) and the schedule site work in the next month (yellow).
- Wireline carrier conversion is done by legacy selective router, moving from South to North.

# Information About ALI Formats

- All ALI Information comes from the carrier.
- As technology has changed, more information has been provided from carriers than what can be contained in standard ALI format configuration - 528 characters.
- INdigital provides a format that is roughly equivalent to double the character count of previous formats - 1010 versus 528.
- Vesta is character limited to 800 characters, and INdigital also has a format that can accommodate this limitation.

State of Alabama AST Locations

# Border Connectivity

## Georgia

- West Point, Polk, Heard, Harris and Seminole are now connected.
- Awaiting dates from the CPE provider for Walker County
- We are awaiting CPE provider coordination with Walker and SOWEGA 911 (Early/Stewart/Randolph).
- The other PSAPs have not expressed a desire to have a direct connection, so we are providing them with 8XX numbers for transfer.

# Border Connectivity

## Florida

- Circuits have been ordered for all border counties in Florida.
- 8XX numbers have also been distributed for all Florida PSAPs.

# Border Connectivity

## Mississippi

- It has been 45 days since we last heard from AT&T's regulatory department regarding interconnection with Mississippi Selective Routers.
- 8XX numbers have also been distributed to all Mississippi border PSAPs.

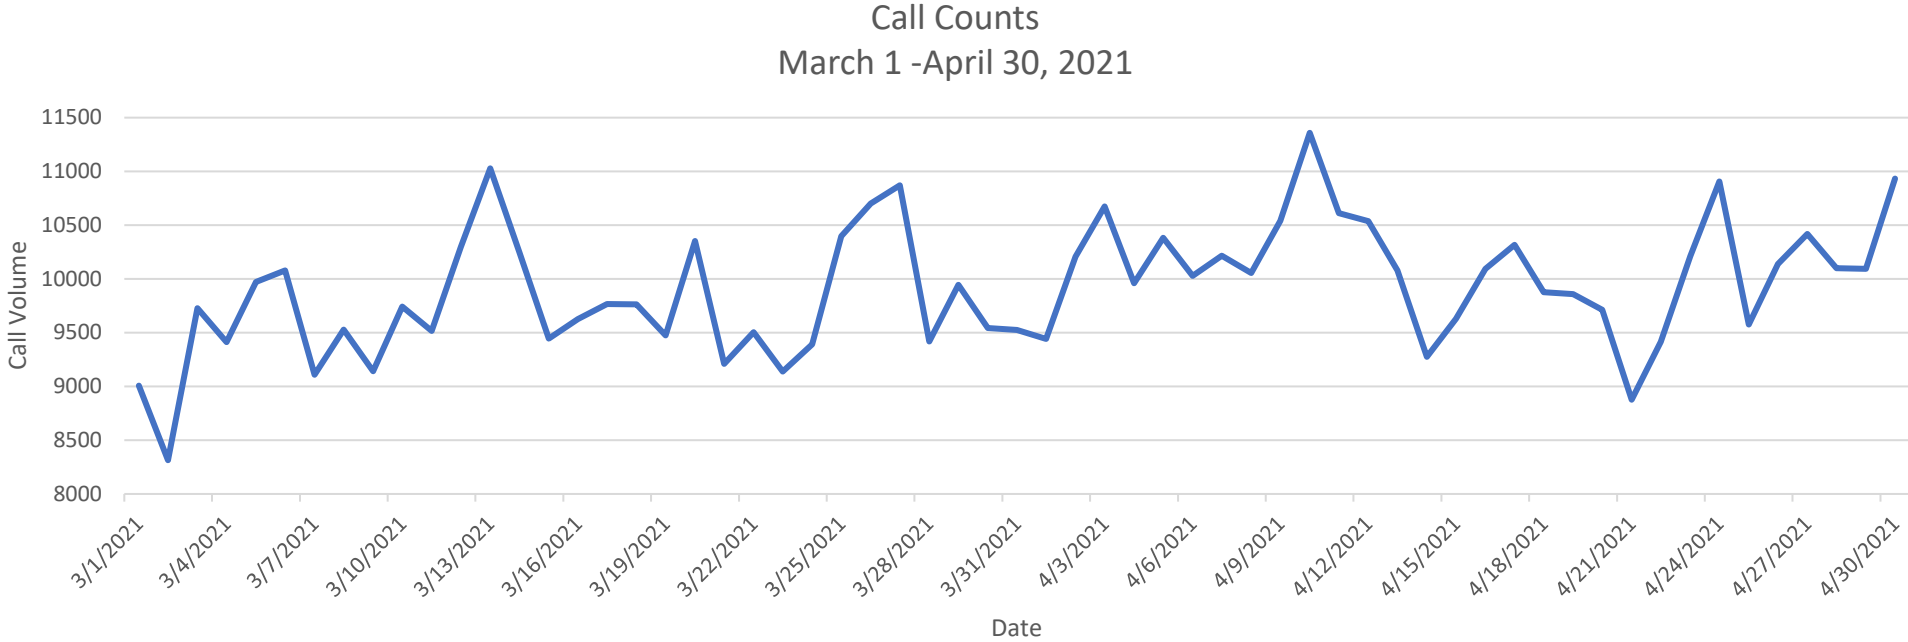

# Border Connectivity

## Tennessee

- Tennessee is in an RFP process for replacement of their current ESInet. We will await word on the outcome of that process to further determine if a network-to-network connection is needed or if direct circuitry into the PSAP is preferred.
- 8XX numbers have also been distributed to all Tennessee border PSAPs.

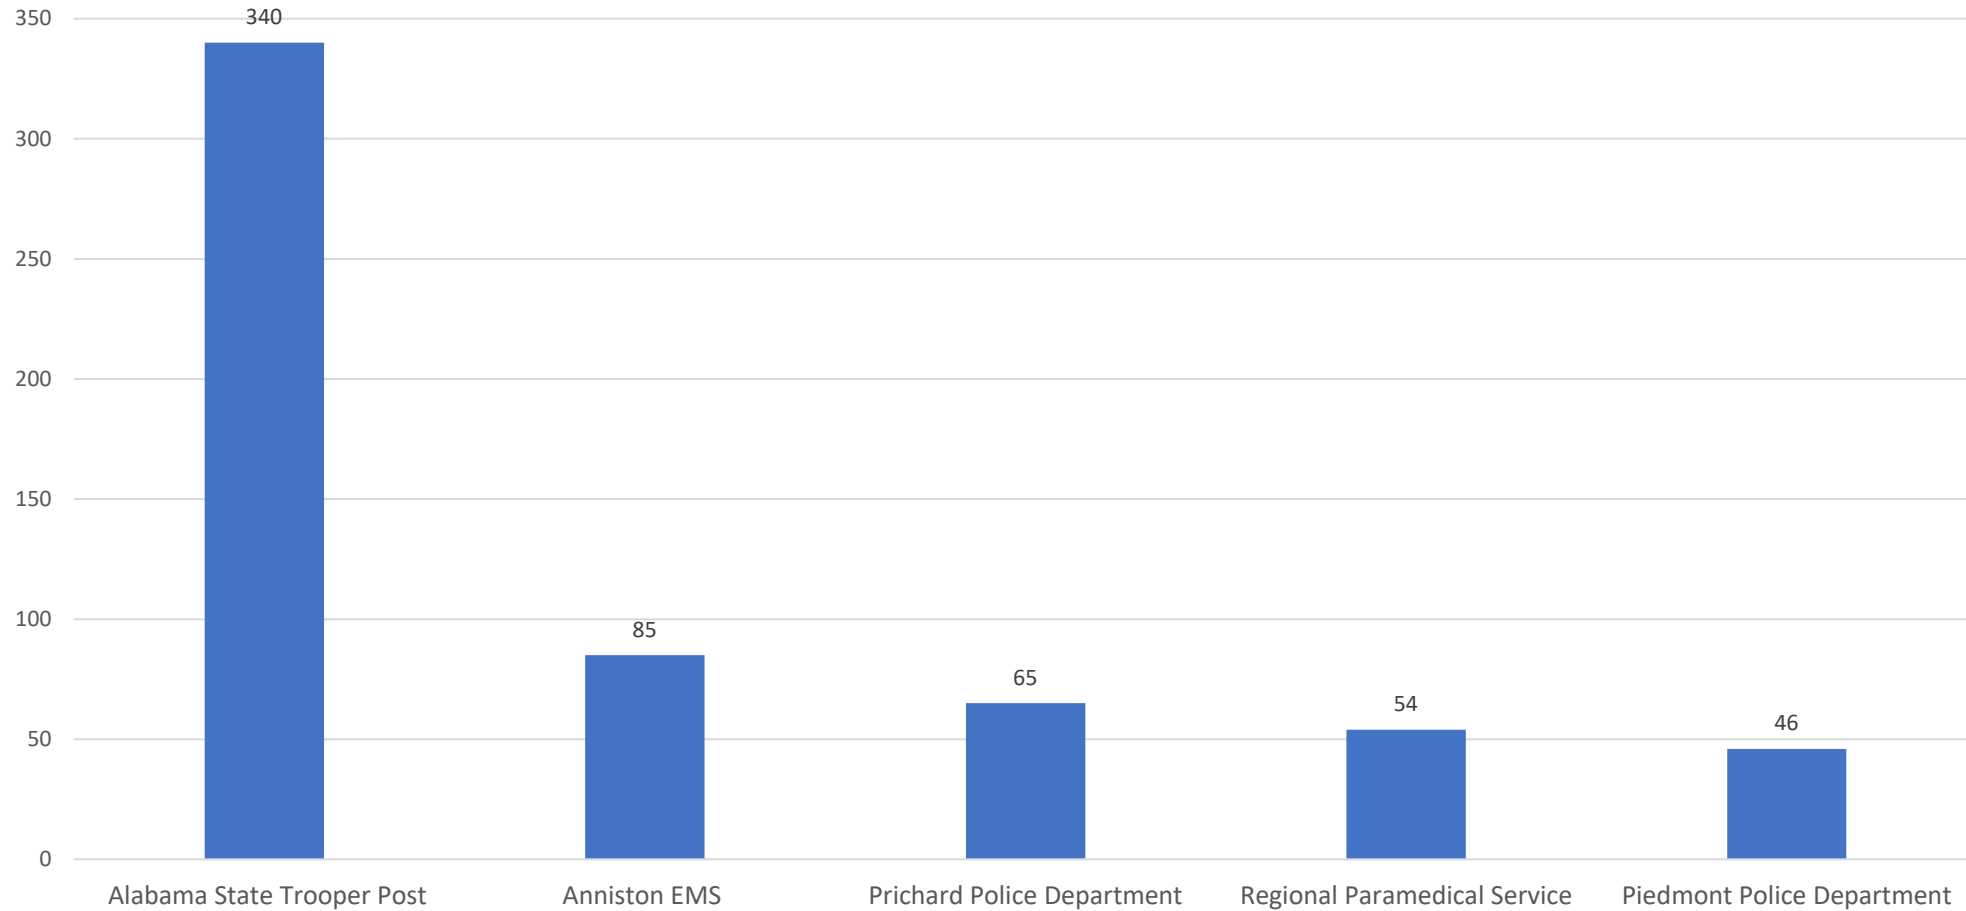

# ESiNet Trends

The busiest day during the period was April 10 -11,358 calls were processed. The second busiest day was March 13 - 11,027 calls were processed. These were both the second Saturday in the month.

## Top Five Secondary PSAP Transfers March 1 -April 30, 2021

## ANGEN Total Call Count February 12, 2018- April 30, 2021

**ANGEN has now processed over 9.6 million calls!**

Average call volume per day: 8,217

Total Call Volume Feb 12, 2018, April 30, 2021: 9,646,779

### Top Five Text for 9-1-1 PSAPs March 1 - April 30, 2021

89% of all text messages were PSAP initiated.

# Trouble Ticket Analysis

A total of 408 tickets have been created since the last report.

64.5% of those tickets were network-related

All Tickets

Core Services Tickets

# The NSOC is staffed 24/7/365.

The easiest and most efficient way to notify INdigital of trouble or to report a problem is to call the NSOC (National Service Operations Center) at (877)469-2010 or email [support@indigital.net](mailto:support@indigital.net).

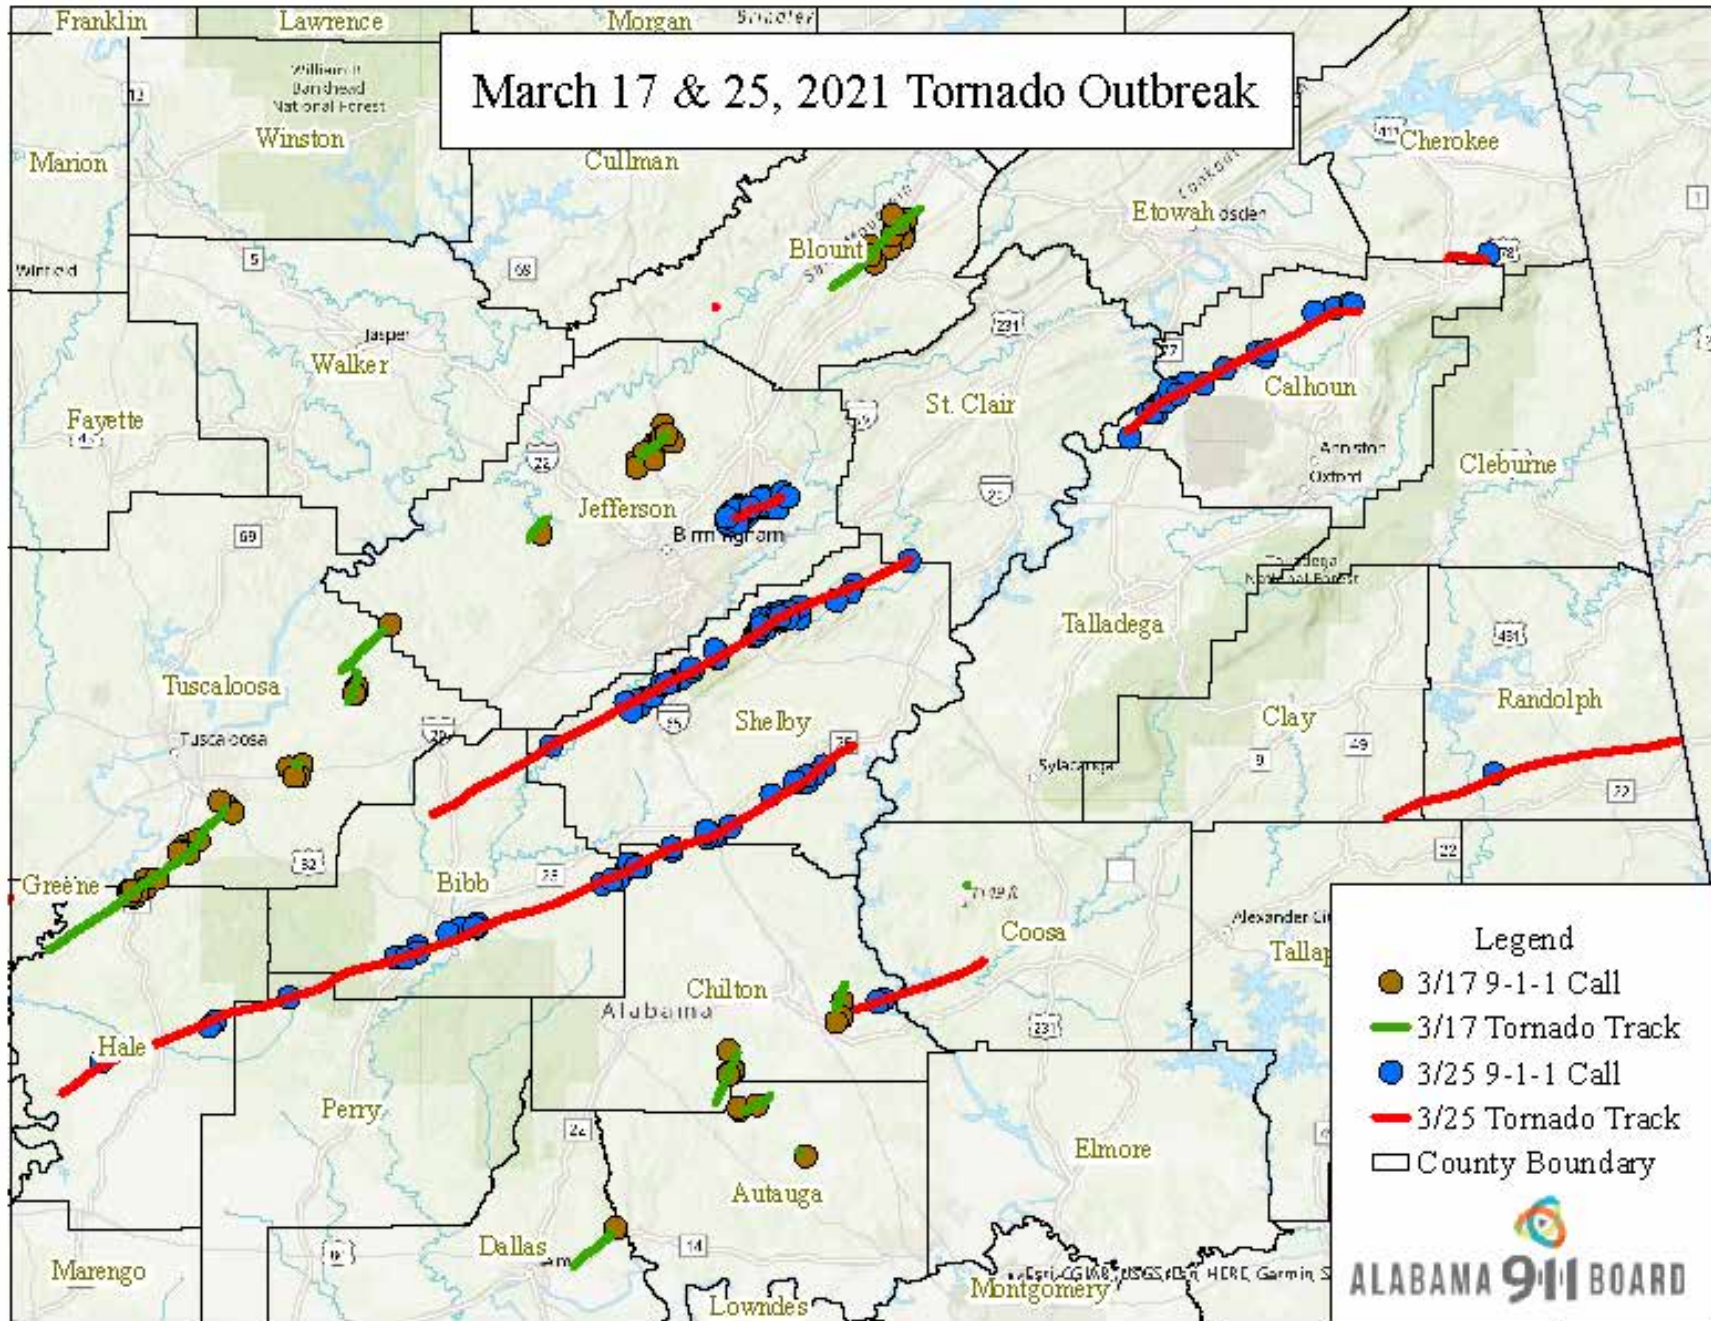

# Significant Event Analysis

## March Tornado Comparison

This map is a comparison of the tornado events from March 17 and March 25, 2021. The March 25th tornadoes killed five in Calhoun County, while no one was killed because of the March 17th outbreak.

# Significant Event Analysis

## Albertville Taser Incident

On April 6th, local media outlets reported that there was a shooting at Hobby Lobby in Albertville. What actually happened is that an unruly man was tased, and when the taser deployed, it sounded like a gun shot.

There were only two 9-1-1 calls associated with the event. They are highlighted on the map.

This is an example of an incorrect media report.
